23.

(1957 LEGISLATION - W. O. 2115.14.)

Chapter 1939, Statutes of 1955, which grants tide and submerged lands in the San Joaquin River to the City of Antioch, County of Contra Costa, requires in part that the granted lands be surveyed by the State Lands Commission at the cost of grantee. During the conduct of the survey under a service agreement with the City of Antioch, it was discovered that there are errors in the description of the lands proposed to be conveyed under the grant statute. The City of Antioch has heretofore requested that the State Lands Commission assist in the elimination of these errors by providing for the necessary amendment of the grant statute. The required legislation has been introduced, at the suggestion of the staff, by Assemblyman Donald Doyle in Assembly Bill 3540.

IT IS RECOMMENDED THAT THE COMMISSION CONFIRM THE ACTION OF THE STAFF IN SUGGESTING THE INTRODUCTION OF LEGISLATION TO CORRECT ERRORS IN THE LEGAL DESCRIPTION OF CHAPTER 1939, STATUTES OF 1955 (A.B. 3540 - D. DOYLE).
